

4 and 6-way PF Data boxes

(Image shows PF BOX 0/4H & PF BOX 0/4V)

- 6C data cut-outs
- 25mm & 32mm gland holes
- Black pre-fabricated steel
- Fast release two screw lid
- Keyed gland entry
- Rows and vertical pairs
- 60mm deep, keyed base fixing
- Space for ID labelling

4 and 6-way data boxes are volume installation products bringing data points to the desk from the sub floor using flexible conduits, normally via a floor access grommet.

The boxes are available in rows or in vertical pairs, one of which will suit the termination and cable bend radii of the particular 6C data module used in the installation.

Standard PF Box units

PF BOX 0/4V	4-way data box, 2 x vertical 6C pairs, fed by 25mm gland hole
PF BOX 0/4V32	4-way data box, 2 x vertical 6C pairs, fed by 32mm gland hole
PF BOX 0/4H	4-way data box, 4 X horizontal 6C, fed by 25mm gland hole
PF BOX 0/4H32	4-way data box, 4 X horizontal 6C, fed by 32mm gland hole
PF BOX 0/6V	6-way data box, 3 x vertical 6C pairs, fed by 25mm gland hole
PF BOX 0/6V32	6-way data box, 3 x vertical 6C pairs, fed by 32mm gland hole
PF BOX 0/6H	6-way data box, 6 X horizontal 6C, fed by 25mm gland hole
PF BOX 0/6H32	6-way data box, 6 X horizontal 6C, fed by 32mm gland hole
A25	25mm anchor bracket
A32	32mm anchor bracket

PF BOX 0/4V length 175mm, PF BOX 0/4H length 190mm, width 65mm, depth 60mm
PF BOX 0/6V length 225mm, PF BOX 0/6H length 250mm, width 65mm, depth 60mm
PF BOX 0/6V/32 length 225mm, PF BOX 0/6H/32 length 250mm, width 65mm, depth 60mm
