- Conforms to BS1363 and BS5733
- 500mm lead to male 3 pole connector

The Power Pack Desktop utilises an ergonomic modern shape which has been designed to blend in seamlessly with other desktop items such as telephones, monitors, keyboards and laptops etc.

Power and Data to the desktop are not uncommon, 6C data cut-outs allow the installer to complete a buildings structured cabling system to the desktop, and the 6C launch leads give additional AV options such as HDMI, VGA, 3.5mm jack and USB as well as Cat 6 data couplers, 3 and 5-metre data assemblies.

Manufactured from a tough ABS plastic extrusion, the same key components from the established and reliable P-Pack under desk product range are used on the desktop to maximise the system performance.
