

P-Pack with RCBO

Modular power with integrated or in-line RCBO protection

P-PACK 4/RCBO

KEY FEATURES

- For new or existing P-Pack systems
- Integrated or in-line protection
- 16A, 30mA Type C RCBO
- Covered RCBO housing
- GST18 input / output connections
- Uses standard START / INTER leads

Add RCBO protection to a P-Pack desk power system. Choose a separate in-line module or a 4-way or 6-way individually fused socket unit with a covered RCBO built in.

Standard models

Part number	Configuration	Fuse / socket	Socket orientation
P-PACK PF/G	In-line RCBO module	-	-
P-PACK 4/RCBO	4 UK sockets + RCBO	5A	North
P-PACK 6/RCBO	6 UK sockets + RCBO	3.15A	North

All models: covered 16A, 30mA Type C RCBO with GST input / output.

Connections & compatibility

GST18 input and output connections suit the matching P-Pack mains and interconnecting leads, under-desk units and desktop power products.

START leads - mains connection to the system.

INTER leads - connection between compatible units.

P-PACK PF/G in-line module

Original datasheet states BS6396:2015 compatibility and references BS6396:2008+A1:2015.
