

KOLDLOK SURFACE / SURFACE L / SURFACE XL

Part Numbers: [46-2000-2020](#) / [46-2000-2030](#) / [46-2000-2040](#)

PRODUCT OVERVIEW

KoldLok Surface grommets are designed for active raised-floor environments where cables are already installed. The split frame allows the grommet to be fitted around existing cabling. Surface L and Surface XL include larger metal sealing plates for wider floor openings.

FEATURES & BENEFITS

- Split design facilitates re-cabling and allows floor tiles to be moved without capturing cables.
- Surface L and Surface XL use metal plates to extend the size of opening that can be sealed.
- Durable, impact-resistant frame with no loose or partially fastened parts.
- Multi-layer brush system provides effective bypass-airflow sealing with or without cable penetrations.
- Adhesive mounting system uses non-particulating foam components.
- Black moulded frame; RoHS compliant.
- Helps increase cooling capacity, static pressure and cool-air delivery through raised-floor grilles.

TECHNICAL SPECIFICATION

Model	Overall Size (W x D x H)	Max Cut-out Sealed	Usable Cable Area
Surface	279 x 210 x 29mm	254 x 184mm	210 x 102mm
Surface L	305 x 298 x 33mm	254 x 248mm	210 x 102mm
Surface XL	305 x 381 x 33mm	254 x 330mm	210 x 102mm

Sealing system: Multi-layer opposing nylon filaments; effective sealing up to 0.10 in. water column.
