PF Data Boxes · 2 & 3-Way

Compact under-desk data termination

KEY FEATURES

- 6C data cut-outs
- Black fabricated steel
- Two-screw removable lid
- Keyed gland entry
- 60mm depth
- 25mm gland holes

Data boxes bring cabling from the subfloor to the desk through flexible conduit, normally via a floor access grommet. A keyed base supports fixing and space is provided for identification labels.

Standard models
